

2023 Argo Amphibious Xpedition Package Price in Kaliningrad is 1700000₽

- Condition New
- Year 2023
- Make Argo
- Model Xpedition Package
- Category Amphibious
- Type Side by Side

2023 Argo Xpedition Package, 2023 ARGO Frontier 650 8x8 H.O. --- XPEDITION PACKAGE ----- with Tracks and 4 Wheel Trailer. The Frontier 650 H.O. delivers 21% more power based on a displacement comparison to the VX 650 engine, while the proprietary ODG cyclonic-style air cleaner with a dual bore carburetor and intelligent choke provides superior reliability to propel this Frontier 8x8 amphibious vehicle through just about anything on land or water.----- LX 650 H.O. ENGINE This 650 Hi-Output V-Twin Fan-Cooled engine is the new standard in power. Perfectly matched to our 8x8 platform, this new ODG engine is engineered with a unique exterior design and a proprietary cyclonic-style air cleaner with a dual bore carburetor, delivering 21% more power plus higher torque. ----- INSTANT TORQUE CLUTCH (ITC) The ARGO Instant Torque Drive System (ITDS) dramatically improves low-end torque and increases acceleration. The Instant Torque Clutch (ITC) is designed to provide the optimal gear ratio, shifting seamlessly throughout the full range to utilize the massive torque and power of our engines. ----- CLASSIC TRANSMISSION WITH APS The ODG Classic transmission is our simplest design and operates like a mechanical skid steer, which gives it incredible maneuverability. In order to provide vehicle steering, braking force is applied directly to the output of the appropriate side of the transmission based on operator steering input. In both high and low range, the Classic transmission provides zero-radius turns to get you in and around extreme terrain. ARGO Progressive Steering (APS) with the Classic transmission achieves a smooth and comfortable drive experience to all XTVs in the Frontier Series. ----- ARGO PROGRESSIVE STEERING (APS) APS is an innovation in the area of braking force application to the transmission steering differential. By adding a spring element between the handlebars and the brake system we achieved a progressive, dual-rate steering system. Steering events are now effortless with an increase of 4X wider range of steering motion, offering the smoothest turning available in an ARGO XTV. APS makes it as fun and comfortable to drive as any UTV. ----- FRONT BRUSHGUARD Adding more value to an already value-packed machine, the Frontier 650 H.O. comes standard with a front brushguard ready to deflect brush and obstacles you may come across on your journeys. ----- STEEL RIMS AND TIRES Steel offset rims with low-pressure 24 tires are custom engineered with a paddle design for amphibious propulsion through water and optimized traction on the most extreme off-road terrain. ----- AMPHIBIOUS BODY Yes, this XTV floats. The one-piece amphibious lower body is the signature ARGO design feature. Its smooth, durable underbody floats over potential snags, stumps and outcrops, as well
