

Order a house directly from the manufacturer.

- ✓ Delivery throughout Europe right from the Urals!
- ✓ We work without intermediaries!

E-mail: a.wood.perm@gmail.com

For Russian-speaking customers only:

WhatsApp, Telegram

+7 (902) 472-02-39

Eco-friendly houses are made from raw material of natural origin - Siberian pine

Why is ordering from us worth it?

We have provided the high quality building services for over 10 years

Calculating and correcting problems with the individually planned house projects are free

In the process of manufacturing we use only Siberian pine!

In the Republika Srpska we have our firm's representative «DOO SIBLES» which offers our customers a full range of services for a turn-key construction, including foundation and roof coating

Finnish equipment (European standards)

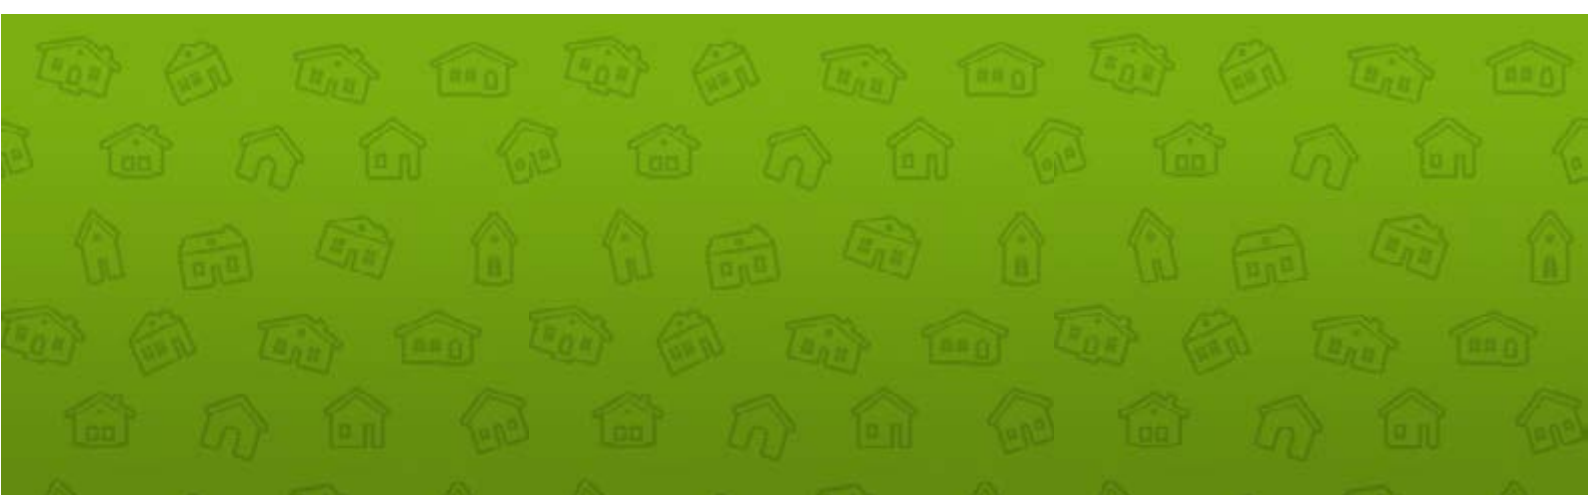

We use equipment from Finland

Log lathe ROUNDTEC makes it possible to realize preservative treatment of the 9 meters long timbers

Formed geometrical profile gives us the ability to construct a building of any complexity.

Log lathe RoundTec Combi; Intermediary:
Tommi Laine Trading Finland
